

◉ Ferraplus Brand Certificated

The Ferraplus brand has been created by Iron and Steel Quality (Calidad Siderúrgica), AENOR's management unit for the certification of framework manufacturing companies. This brand characterises certified concrete passive reinforcements, guaranteeing their quality, reliability and warranty.

The Ferraplus brand implies:

- AENOR's  Mark of Product Certificate.
- When delivered, reinforcements are completely identified by all the documentation stipulated by the legislation currently in force.
- Reinforcements are manufactured at the industrial plant following a production control process that guarantees homogeneity.
- A public liability insurance of 3,000,000 €.
- Commercial steel Arcer with high-ductility features that increase structure safety.
- A traceability system consisting of:
 - Bars which are identified through engraved letters and numbers.
 - Raw materials which are labelled with bar codes.
 - A computerised record of received and supplied materials.

Public liability insurance policy

It covers liabilities up to 3,000,000 € that Armatek® products may cause under the protection of the following:

- Public liability of products, finished works and/or services rendered.
- Damages caused to the patrimony of third parties which are non-consecutive to material damages and/or personal injuries.
- Public liability for joining and mixing.
- Public liability for mounting and dismantling.
- Bond and criminal defence.
